Data analysis by CleverElements

We use CleverElements to analyse our newsletter campaigns. This allows us to determine if a newsletter message has been opened and which links you click on. We can thus find out how often various links are clicked.

CleverElements also allows us to classify newsletter recipients into different categories (e.g. by place of residence). This allows us to adapt the newsletters to the respective target groups.

For detailed information on the functions of CleverElements, see the following link: <https://cleverelements.com/product>.

Legal basis

Data processing is based on Art. 6 (1) (a) DSGVO. You may revoke your consent at any time. The data processed before we receive your request may still be legally processed.
